FEATURES

androidtv

Android PIE harnesses the power of artificial intelligence to give you extra entertainment options and a great user experience.

Personal Google Assistant is always ready to help.

A global online store to find, enjoy, and share your favourite apps, games, movies, music, and books on all your favourite devices.

NETFLIX

Watch thousands of TV shows, movies, and Netflix original programming on your TV.

See what the world is watching, the hottest music videos, news and more.

Enjoy thousands of online streaming videos with Amazon Prime Video.

Cast your favourite entertainment content from your Android or iOS device.

With 8 million pixels, the image is vivid and real as if it is within reach. 4K UHD has higher pixel density, providing a clearer, better defined picture.

High-dynamic-range video. Key feature of HDR video are brighter whites, deeper blacks, and at least a 10-bit colour depth.

Dolby Vision HDR brings extraordinary colour, contrast, and brightness to the screen, transforming your viewing experience.

Dolby Audio uses advanced processing technology to create a dynamic audio experience.

Working seamlessly with Alexa, your TV is more responsive, reliable, and functional to be of your assistance.

The powerful quad core A55 64 bit enables smoother and more stable images to improve the users viewing experience.

HLG is designed for broadcast cable, satellite and live TV. It uses multiple routes to progress picture quality and produce vivid images.

Picture or video occupies the whole TV screen. The picture seems bigger than regular televisions.

ROM(8GB)

The 8GB of ROM stores more content and which supports a very fluent operation.

GPU

Graphics Processing Unit: Mali 470 image processing has 3 cores which makes transmission faster. The result is superb images.

Bluetooth 5.0

Bluetooth 5.0 can transmit eight times more data, at twice the speed, across four times the range than Bluetooth 4.2.
