**Dual-inverter Technology** | The dual inverter compressor is energy efficient and low noise. Intelligent speed regulating enables low speed with low noise and high speed for fast cooling thus small temperature fluctuations for the extended preservation of your food.

**Variable Temperature Chamber** | The CHI Q flexi-room to adjust the temp. from 5°C to -24°C, to meet different storage requirement.

**Bottom Heat Dissipation** | Thanks to its bottom heat dissipation, it can stand flush with your countertop for a sleek look.

**Triple Cooling System** | Three temperature controls, independent temperature control or OFF.

**LECO System** | Abnormal odors and microorganisms are dissolved by the CHI Q LECO System which also discharges natural CO<sub>2</sub> & H<sub>2</sub>O material to actively eliminate bacteria.

**Multi Air Flow** | The system ensures chilled air reaches each shelf quickly and uniformly to ensure the food will stay fresher for longer.

**LED Display with Control** | The LED digital temperature display and electronic controls ensures the optimum control of the fridge and allows for seamless setting adjustments for different modes.

**Frost Free** | The CHI Q Frost Free feature maintains the correct internal temperature for more effective food preservation meaning there is no need to manually defrost the unit.

**Back LED Light** | LED lights are energy efficient and reduce heat output and provide lighting for a better internal view of your contents.

**Holiday Mode** | Switch the fridge section to low energy use Holiday Mode when you're away to save on energy costs.
